

**Department of Health and Human Services
National Institutes of Health (NIH)
National Institute of Neurological Disorders and Stroke (NINDS)
Director, Neurology Consultation Service**

The National Institute of Neurological Disorders and Stroke (NINDS) Intramural Research Program is seeking a Staff Clinician to lead the Neurology Consultation Service at the NIH Clinical Center in Bethesda, Maryland. The Neurology Consultation Service provides neurological evaluations and advice on the care of primarily adult and some pediatric inpatients and outpatients who are enrolled in clinical protocols at the Clinical Center. The NIH Clinical Center is the largest research hospital in the world and conducts early-phase clinical trials and natural history studies of rare disorders. The candidate will direct a consult team composed of nurses, fellows, and other trainees. Some effort will be protected for research, teaching and administration. Experience with the diagnosis and management of a wide variety of neurological problems, particularly related to oncological, immunological, and genetic disorders, is important. This is also a unique and exciting opportunity for a neurologist looking to expand and deepen their expertise in these areas.

The successful applicant must have an M.D. or M.D./Ph.D. and be a board-certified Neurologist. Expertise in neuroimmunology is preferred. The applicant should hold a permanent, full, and unrestricted license to practice medicine in a state, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States; and meet the requirements to be credentialed at the NIH Clinical Center. The ideal candidate should have demonstrated leadership ability, and relevant training in clinical care and research.

Salary will be commensurate with experience. A full civil service package of benefits (including retirement, health, life and long-term care insurance, Thrift Savings Plan, etc.) is available.

Applicants should send curriculum vitae, including bibliography, statement of research interests and a list of three references to: Katy Finnell, NINDS/NIH/DHHS, 10/2A23, 10 Center Dr., MSC 1430, Bethesda, MD 20892 or via email: finnellk@nih.gov. Applications will be accepted until the position is filled.

Applications from women, persons from underrepresented groups, and persons with disabilities are strongly encouraged.

Appointees may be US citizens or resident aliens.

All employees are subject to a background investigation
DHHS and NIH are Equal Opportunity Employers
